Technical Skills: Git, AWS, APIs, Android, UML, WordPress, Firebase, Salesforce, and Figma
Frameworks: NodeJS, React, TailwindCSS, Material UI, Framer Motion, NextJS, ChartJS, Splide, JQuery, and TensorFlow

WORK EXPERIENCE

The Mobile Shop   Toronto, ON
Wireless Sales Associate   Nov 2024 – Present
- I perform transactions and create new contracts on customers' mobile/internet accounts while adhering to each provider's policies on confidentiality and service agreement procedures.
- Took the initiative to learn other responsibilities such as receiving/ordering the newest phones and accessories, transferring to other stores, and cash management.

Freelance Web Development | (Additionally, On-Call for **Pyrite Production Company Inc.**)   Toronto, ON
Web Developer   Jan 2024 – Present
- Recently partnered with **MAPS Rentals Inc.** (www.mapsrentals.ca), a boutique property leasing firm based in Ontario, to transform their leasing experience through innovative digital solutions. I created a custom web app using modern frameworks including **React**, **Tailwind CSS**, **Material UI**, and **Framer Motion** for an engaging user interface.
- Conduct UX/UI design and brand building for my clients using tools such as **Figma** and **Photoshop** to deliver intuitive and aesthetically pleasing user experiences.
- I apply responsive design techniques to ensure optimal viewing across various devices.
- Deployed a product designer for a local t-shirt printing business that empowers customers to design their own products, streamlining the clothing design process.

1-800-Got-Junk   Toronto, ON
TTM - Navigator   Aug 2024 – Nov 2024
- Performed estimates, insurance documentation, truck inspections, and navigation duties.

Turn Up The Heat   Toronto, ON
Sales Associate   May 2023 – Aug 2023
- Engaged with customers and promoted product features to drive sales.

PROJECTS

Lift App | Play Store   Jan 2024
- The Lift App allows powerlifters, bodybuilders, and fitness enthusiasts to create, perfect, and share their workout routines through an intuitive and fast user interface.
- I developed this app with **Java**/**Material3** and utilized **FirebaseAuth**/**Firebase Firestore** for the backend, allowing users to connect with others and learn more about fitness.

Smart Checkout App | Thinking North, Smart Cities Hackathon   May 2023
- Advanced into the in-person finals and placed first runner-up with an Android app that streamlined the no-cashier shopping process using **Tensor Flow** computer vision.
